

Storm Data and Unusual Weather Phenomena - March 2010

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ILLINOIS, Central				
(IL-Z068) CRAWFORD, (IL-Z073) LAWRENCE				
	03/25/10 15:00 CST		75K	Strong Wind (MAX 37 kt)
	03/25/10 21:00 CST		0	

A strong area of low pressure moving along the Ohio River Valley combined with a slow moving high pressure center in the upper Great Lakes resulted in sustained winds of 25 to 35 mph, with gusts over 40 mph in southeast Illinois. This wind, along with a very saturated ground, resulted in several shallow rooted trees toppling over in southeast Illinois.
